## LAWYERS.

**W. M. G. SNYDER,**  
Attorney-at-Law,  
JACKSON, CAL.  
Office in Marelia Building, Court street.  
Will practice in all the courts of the state.

## DOCTORS.

**E. E. ENDICOTT, M. D.**  
Physician and Surgeon  
JACKSON, CAL.  
Office: Webb building. All calls promptly attended to at all times.

**D. R. FRED F. SPRAGUE**  
Physician and Surgeon  
JACKSON, CAL.  
Office: Next door to residence, north Main street, opposite California hotel.  
Telephone Main 32

**D. R. A. M. GALL**  
Physician and Surgeon  
JACKSON, CAL.  
Office in Marelia building, Main Street.

**P. S. GOODMAN, M. D.**  
Physician and Surgeon  
SUTTER CREEK, CAL.

**D. R. L. G. LYNCH**  
Physician and Surgeon  
Tel. Office, Main 26  
Residence, Main 27  
Amador City, Cal.

**B. F. WALKER, M. D.**  
Practice limited to diseases of  
EYE, EAR, NOSE AND THROAT  
Office—ELK'S BUILDING,  
STOCKTON, CAL. 1531

## DENTISTS.

**D. R. JOHN A. DELUCCHI**  
DENTIST  
SUTTER CREEK, CAL.  
Office Hours:—From 9 a. m. to 5 p. m.

**D. R. A. W. SUTHERLAND**  
DENTIST  
JACKSON, CAL.  
Hours 9-5  
Telephone Black 744

**RICHARD WEBB**  
United States Commissioner  
JACKSON, CAL.

Will attend to Homestead and other filings; taking of final proofs and all other Land Business.  
Deeds and other legal documents drawn up.

## After Hutchinson of the Western Federation

Hutchinson, the executive board member of the Western Federation, who took charge of the late strike of miners in Amador county over the interpretation of the eight hour law, is getting a fill of adverse criticism from his fellow members of the federation. Martin Wallace, ex-president of the state miners' union—affiliated with the Western Federation—published a long communication in the Grass Valley Transcript, denouncing Hutchinson as a falsifier, a breeder of dissension, and for incompetency in the management of the strike in this county. There is no question that Hutchinson stirred up a lot of ill-feeling in this vicinity, not only by his conduct while there, but also by his correspondence published in the organ of the Western Federation in relation to the strike, and the cause of its failure. He abused all who did not take an active part, as scabs, etc. The visit of the present president of the state union, W. J. Martin, to this section is believed to be largely in the effort to obliterate the effect of the ill-advised tactics adopted by Hutchinson, and to restore harmony and good feeling in union ranks. Martin Wallace has this to say about Hutchinson:

"This is not the first time he, Hutchinson, has tried to disturb the state union of California. He has tried to poison the minds of the membership of the state union once before in this State to the effect that the state union would repudiate the Western Federation in California and undertake to withdraw, but I am glad to state he did not succeed in his dirty work for the election returns of the state union can show how the membership stands with the state union, as the principal officers were returned to office again by an overwhelming majority. Furthermore, I am in receipt of a letter from Jackson, Amador county, where Hutchinson went to take charge of the late strike, asking me not to send such men as Hutchinson to help them out, as such men do more harm than good to the cause of the W. F. M. and I am of the opinion, as well as the large majority of the membership of Jackson, that if Hutchinson had stayed away from Jackson during the late strike and let the state union handle affairs, the strike would have ended in favor of the miners. He also states that the Cousin Jacks, or Cornishmen, and the Native Sons were the cause of the strike being lost. This charge I think will be answered later by the parties charged. Not having been at Jackson during the strike I am not in a position to judge, but I will say that I am not a Native Son nor yet a Cornishman, but if I were a Cousin Jack or Native Son I would be proud of it, and I can give proofs that there are better union men in both parties than ever Hutchinson knew how to be. And why they are better men is easily answered—because they don't go around sowing the seed of dissension and decrying everything that has or is being done by the officers of the W. F. M. that he, Hutchinson, has not done the lion's share of it. What right have you, Hutchinson, to bring in nationality? A man can not help his nativity and a man that will bring up such things in our ranks has no right on the Executive Board of the W. F. M., and the sooner he is requested to step down and out the better it will be for the ranks of organized labor. A man that misrepresents, abuses and slanders will degrade himself for personal ambition at any time and I am of the opinion Hutchinson is of such a class. No one knows better than Hutchinson himself that he intentionally falsified when he made the statements that he did on the floor of the convention and he was simply using his official position to distort the facts about the eight-hour law for miners in California. There is no one in the Western Federation more willing or ready to demand an eight hour law that would reach from collar to collar, including meal hours than the officers of the California State Union if the time was ripe to do so, and in my opinion the time will never be ripe to make such a demand as long as the conditions remain as they are at present in California, with not one-half of the miners, mill and smeltermen organized, and were such conditions left to such a man as Hutchinson, who is inebricated in the exuberance of his own verbosity, God help the chances of bettering said conditions in California."

## An Old Resident Answers The Last Call.

Richard W. Ketcham, well known throughout Amador county, having lived in the vicinity of Plymouth, also in Jackson, for a number of years, passed away on Monday afternoon at his home in Woodbridge, San Joaquin county. It appears that he submitted to a surgical operation about two weeks ago in the hope of prolonging his days. At his advanced age—84 years—the shock was too much for his system, and is thought to have hastened the end. Deceased and wife, up to about two years ago, occupied a farm on the outside of Jackson, adjoining the Bright field. After disposing of this place, he moved to the vicinity of Woodbridge, and later into the village itself. He was a pioneer settler in the Woodbridge section. He leaves a widow to mourn his departure. Deceased was a man of lofty ideals and noble character, respected and esteemed by all who knew him. The funeral was held at Woodbridge Wednesday afternoon, interment in the village cemetery.

## Died of Typhoid Fever.

Word was received here Sunday that Amiel Ehler, a young man who spent many years in Amador county, died that day at Silver City, Nevada. He was a victim of typhoid fever. He was working at a mine in that camp when stricken with the mortal malady, which speedily led to a fatal termination. Deceased was a brother of Mrs Wm. Daugherty. He was a member of Grant Pass lodge, Fraternal Order of Eagles, which organization took charge of the funeral ceremonies, as the body was brought here for burial by the side of a brother who died about a year ago. The funeral was held Wednesday, interment in the city cemetery. Deceased was a young man, only just passed the threshold of manhood, and his untimely end is deeply regretted by a large circle of acquaintances in Jackson and other parts of the county.

He leaves a father, who lives in Acampo, San Joaquin county; and five half-sisters. A full brother was killed in the same mine that deceased was working in about a year ago. He had been at work but a few hours, when a rock fell, and killed him.

Stop earache in two minutes; toothache or pain of burn or scald in five minutes; hoarseness, one hour; muscleache, two hours; sore throat, twelve hours—Dr. Thomas' Electric Oil, monarch over pain.

## A Reliable School.

Atkinson's Sacramento Business College founded 1873, after an occupancy of 26 stories of the City Library for fifteen years and the upper story of Hale's Block for twenty-two years, is now permanently located in its new home at Thirteenth and J. Streets. It has the best appointed Commercial School Apartments to be found in the State, especially designed and completed for its own use. Its rooms and offices are spacious and commodious, with abundance of light and ventilation.

## Classy Photo.

It takes fine workmanship, experience and the best of apparatus to turn out a "Classy Photograph" in these days of strenuous competition. Of course when you have your picture taken you want the very best, especially when the best costs no more than work of inferior quality. LOGAN, the premier photographer of Stockton, is fully prepared to give you this better class of Photo's. Visit his studio at 15 S. San Joaquin St., Stockton, when you are in town.

## To Subscribers.

Our subscribers must bear with us for a week or two in failing to change the date on their wrappers or papers to correspond with recent payments on subscription account. The result of the voting contest has added hundreds of names to our list of subscribers. Old subscribers who have made payment will be published in roll of honor as soon as possible. We cannot do this with new subscribers, as they are too numerous, and the list would occupy too much space. Besides, it is unnecessary, as each paper is stamped with the date up to which the new subscriber has paid. With old subscribers the date will be corrected in due time.

Pioneer flour is the best; have no other.

## Arrested For Assault.

Last Tuesday an Austrian named Obren Savich was arrested by sheriff Gregory at his home on Church street, near the Catholic cemetery, on a charge of criminal assault upon a seven year old girl named Sophie Capor. The assault is alleged to have occurred on Sunday. The child was not injured in any way, and the offense appears to have been more of the indecency than anything else. The relatives of the child became aware of the facts by a casual remark of the girl to the assailant. The offense was committed in the cellar of the residence. Savich, when landed in jail, made a full confession of the affair, speaking of it in a manner that conveyed the idea that he regarded it as a trifling matter. The accused is 45 years of age, and has been a resident of the city for many years, working in the mines for a long time. It seems that Savich owns or lives adjoining the house occupied by Capor, and also owns the Capor house, renting the same to them with the reservation that he should use the rear of the lot, cultivating tobacco thereon. Under this arrangement he had the right to enter the lot in the pursuit of his business at any time.

## Bazaar.

The ladies aid of the Methodist Episcopal church desire to thank the public for their gifts to and patronage of the supper and bazaar. The supper and bazaar were a success. The amount cleared after all expenses were paid was a little over \$100. A great many useful and fancy articles were left over, and will be sold at greatly reduced prices. Any one desiring to purchase any of them can do so at the home of Mrs G. W. Brown.

## Chronic Diarrhoea Relieved.

Mr Edward E. Henry, with the United States Express Co., Chicago Superintendent, Mr. Quick, handed me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy some time ago to check an attack on the old chronic diarrhoea. I have used it since that time and cured many on our trains who have been sick. I am an old soldier who served with Rutherford B. Hayes and William McKinley four years in the 23d Ohio Regiment, and have no ailment except chronic diarrhoea, which this remedy stops at once." For sale by Jackson Drug Store, Spagnoli Prop.

## The Auto Business

The auto stage line from Jackson to Stockton has failed to resume its daily trips. A number of reasons are circulated to account for this continued suspension. Some of them are no doubt far-fetched and groundless. On reason says that the company is waiting for protectors for the tires, as the rough roads are too much for the ordinary tires. Another reason says that the company that sold the autos on the installment plan object to the staging business, as involving too much wear on the machines. Another explanation is vouchsafed that it begins to dawn on the managers of the garage that there is no profit in a stage line of that kind over mountain roads. Anyway the stage line still sleepeth. The promoters are endeavoring to sell the capital stock of the company, with what success we do not know. The directors have held several meetings, but are close-mouthed as to the outcome. Evidently matters are not moving along as smoothly as could be desired. Still there is some business doing. Even without dabbling in daily stage lines, there is room for a small garage, properly handled. On Sunday an improvised game of baseball was played at Zeila park, Jackson vs. Jackson. The autos were in big demand carrying passengers to and from the grounds.

Tom Pullen, of the Angels quartz mine, took a spin over to Amador county the other day in his auto. He reports a "peach" of a trip. The fellow who pushed the wheelbarrow across the continent a few years ago, didn't have half the difficulty that Tom experienced on his trip from Angels Camp to Jackson. The auto didn't turn turtle, but it went through all the contortions known to a refractory automobile on a mountain road. Tom made the trip, and is here safe and sound and will relate the incident, if modestly approached upon the subject.—Angels Record.

## MINING NOTES.

Butte Basin Gravel.—A private company has been organized to operate this gravel claim located at Butte basin, two miles southeast of Jackson. They have bonded or leased the property, and are making arrangements to proceed with development work immediately. It is reported that a 25-horse power engine has been bought, and will be brought from Valley Springs, with other equipment necessary to sink to the auriferous bed that is believed to exist in this basin. Harry Johnson, an expert mechanic of Oakland, who is also interested in the mining venture, will take charge of putting up the machinery. The company expect to have 20 men employed in developing the mine in a few days. W. E. Stewart, who has lived in the vicinity of the claim for many years has interested the parties to take hold. Several efforts have been made to get to the gravel bed of this basin. The main trouble heretofore has been the superabundance of water encountered. A tunnel was driven years ago to drain the water. This is reported to have reached a point where it will effectually drain the mine. According to reports, the gold-bearing channel is said to be 800 feet long, 40 feet wide, and about eight feet deep. The prospect of striking a bonanza is well worth another effort to tap this basin.

Kennedy—Sinking operations have been completed for the present. The shaft has been sunk to a depth of 3405 feet, including sump 105 feet. The work of cutting a station at the 3300 foot level has been commenced, preparatory to opening up a new level at that point.

Argonaut.—At the 3150 level the tank and ore chute have been completed, and crosscutting has been started at that level. The mine is looking all right, a big surplus has accumulated in the treasure, and the stockholders are confidently looking for the resumption of dividends at an early date. Superintendent Rainford is expected to return early in October. He has been away in the Eastern states for the purpose of re-establishing his health after a severe attack of typhoid fever, and we are pleased to state that reports have reached here to the effect he has fully recovered.

## Searched With a Hot Iron.

or scaled by overturned kettle—cut with a knife—bruised by flammed door—injured by gun or in any other way—the thing needed at once is Bucklen's Arnica Salve to subdue inflammation and kill the pain. It's earth's supreme healer, infallible for Boils, Ulcers, Fever Sores, Eczema and Piles. Price 25c. at Jackson Drug Store, Spagnoli Prop.

## 'Twas a Glorious Victory.

There's rejoicing in Federa, Tenn. A man's life has been saved, and now Dr. King's New Discovery is the talk of the town for curing C. V. Pepper of deadly lung hemorrhages. "I could not work nor get about, he writes, 'and the doctors did me no good, but, after using Dr. King's New Discovery three weeks, I feel like a new man, and can do good work again.'" For weak, sore or diseased lungs, Coughs and Colds, Hemorrhages, Hay Fever, LaGrippe, Asthma or any Bronchial affection it stands unrivaled. Price 50c and \$1.00. Trial bottle free. Sold and guaranteed by Jackson Drug Store, Spagnoli Prop.

## Caution to Water Consumers.

To stop the wastage of water during the night, all customers are hereby prohibited from using water for sprinkling or irrigating after 8 o'clock p. m. Persons found allowing water to run after that hour will be liable to have the supply cut off for all purposes. And a charge will be made in order to have the domestic supply turned on again. I am compelled to adopt this rule, because the wastage lately has been so great, that it has been impossible to keep the tanks full at night for protection against fire.

Mrs C. Richtmyer, Proprietress, Jackson, August 20, 1909.

## THE PRIMARY ELECTION LAW.

The primary election in San Francisco last week was awaited with much interest throughout the state, not merely because of the outcome of the nominations for city offices in San Francisco, but also on account of its being the first practical test of the primary election law passed by the last legislature, according to the provisions of which all future party nominations in California, whether for state, county or municipal officers, must be held. It seems to have worked satisfactory. Less than 50 per cent of the total vote was polled. That is a very fair percentage, much larger than has heretofore been the rule under the old system.

One objection to the new law is the additional expense it must necessarily entail both upon the candidates for office, and the public treasuries. Under this law a candidate, in a contest within his own party will have to make two canvasses—one before nomination, and if successful in receiving the party indorsement, another canvass to secure his election. This is a serious handicap, inasmuch as the cost of getting elected to office has always been far too great, leading to increased salaries of officials, and a consequent additional tax upon the people for the support of this extravagance. Primary ballots—and they are formidable documents, the one used in San Francisco being a blanket sheet between two and three feet square—must be printed and circulated at the expense of the public, and the election must be conducted in every respect the same as a general election. So that the cost under this plan will be almost as heavy at a primary election as at a general election. It is this aspect of the law that presents the most objectionable feature, coupled with the prevailing idea that no particular reform in politics is likely to be effected by the system. It is premature at present to pass upon the merits or demerits of the primary law. It must be practically tested in Amador county before its good or bad qualities can be fairly appreciated.

## THE GOOD ROADS MOVEMENT.

There is not a county in California that is not interested more or less in the subject of good roads. In some counties it takes the form of a move for the issuance of long term bonds to provide funds to construct macadamized roads. In our sister county of Calaveras the good roads committee—for they have organized for the express purpose of accomplishing something in this direction—have sent out a number of postal cards to ascertain the sentiment of the people on certain points. The questions on which answers were requested are as follows:

- 1st. Are you in favor of good roads?
- 2d. Would you be in favor of helping us get them?
- 3d. What is the general feeling in your locality?
- 4th. Are you satisfied with the present system of road construction in your county?

The only vital point is contained in the last question. It strikes at the root of the whole matter. The answers returned to this query should suggest the practical course for the improvement of public highways, not merely in Calaveras county, but throughout the state. To this question 95 per cent of the answers were against the present system, and only three per cent in favor. This percentage is doubtless a fair test of the sentiment of the people throughout California, and it is safe to assert that the three per cent of those in favor of continuing the present ruinous system came from those who are individually benefitted by its continuance. It appears to us an insult to one's intelligence to ask a man if he is in favor of good roads. It is about on a par with asking whether he is in favor of good health, or good times. No one in his right mind would dream of answering in the negative. But when it comes to the question of how to go about to secure better roads, the replies will show a wide divergence of opinion. At any rate the replies from citizens in Calaveras county indicate the prevailing sentiment that the improvement must be directed first towards amending the road law, by taking the road maintenance and oversight out of the hands of the supervisors. The existing system is a lamentable failure, a criminal waste of public money. Good roads will remain unknown until a more rational method of road maintenance and oversight is adopted. The more money is dumped into the ditches and chuck holes termed county roads, the more money will be squandered. We do not believe taxpayers can be cajoled into voting road bonds as long as management of highways remains as at present. As far as Amador county is concerned, our roads have deteriorated in many places, in spite of the vast amount raised every year for their maintenance.

## How He Found Sleep.

By SALLIE MENDEEM.

[Copyright, 1909, by American Press Association.]

The way I got out of the burglar line was this: I had mighty good nerve and wasn't afraid of any one. I seemed to know what kind of a crib to crack and how to do it without waking anybody up and getting away between midnight and dawn, when the cops are most drowsy. While I was doing a job I thought of nothing except my work and was both cool and watchful. I wasn't one of those blokes who scare people to death or who are ready if necessary to add murder to robbery. The truth is I never liked the prospect of facing either charge.

As I was saying, while engaged at my work, however dangerous, I was steady as a monument, but when danger had passed and I had nothing to do but think I went downhill very fast. What bothered me most was that I couldn't sleep nights—that is, when comfortably stowed away in bed. I once took a nap in a gentleman's parlor and was only awakened by the sun coming up and shining in my eyes. I just got out in time to save myself. But when lying on a soft mattress, with warm covers and no chance of being disturbed, sleep wouldn't come to me. I lay awake thinking of the time when I would hear prison doors clang behind me. The thought was dreadful. I'm afraid I was too fine grained for the business.

Month after month my hours of sleep grew less till I feared insanity. One night I woke up at midnight after having slept two hours and knew there would be no more slumber for me till the next time I went to bed. I was so desperate that I got up with the intention of going into some house where I had no right and there snatch another couple of hours' sleep. I had a crib in view, a small house with not much in it. But I was looking for sleep, not plunder. I went there, took out a pane of glass, entered and went upstairs to find a place to settle down. I stood in a dark hall looking into a room where a night lamp was burning. In the room a woman was in bed with a child, both asleep. The child was sleeping on the front of the bed, very near the edge. He was a boy and, I think, about five years old.

On a narrow lower bed, close beside the other, slept another child, a girl of about three. She was sleeping in the center of her bed on her side and had her chubby fist up against her fat cheek. It was hot summer weather, and none of them except the woman had any covers whatever.

What interested me was that the boy's head was hanging over the side of his bed and so much of his body, too, that it looked to me as if he was about to fall. He was restless, and I knew he would be over very soon. Somehow I wanted to see him fall, though I kept in the dark so that he wouldn't see me if he woke up. The next kick he made sent him over. He fell a couple of feet, but didn't wake up. He landed partly on the little girl, but she didn't wake up either. I expected she would, as she moaned once or twice in her sleep and turned over, but finally she slept as peacefully as before.

It was such a delightful picture to one suffering from insomnia that I kept on watching the children. The boy continued his kicking and crowded the girl, pushing her with every move to the front edge of her bed. It must have been half an hour that he kept this up, when there was a thump, and the girl lay on the floor. But she seemed to be as comfortable there as on her bed. At any rate, she showed not the least sign of waking.

Meanwhile I heard the muttering of distant thunder, and while I was looking at them all there came one terrific crash loud enough to wake the dead. The mother turned over, but neither of the children moved. Then followed one crash after another, and I expected that at least the mother would wake up, and take a look at her children. But she slept on. She must have been very tired or had lost a lot of sleep or she couldn't have slept through those terrible bolts. Never had I heard such thunder before.

The only effect the storm had on any of them was to increase the restlessness of the boy. He rolled and tumbled in his sleep like a ship tossed by the waves, sometimes lying for a few minutes close against his mother's bed, then rolling over to the outer edge of his own. I was sure he'd in time tumble out of this bed, as he had out of the other, and I was bound to see him do it. Sure enough, before I expected it he gave a lurch and landed plumb on top of his sister.

Neither of them awoke.

I reckon women know in their sleep what's going on with their children, for, now that the storm was over and everything was still as the tomb, the mother sat up in bed, glanced at her children, got up and put them in their proper places. Then she went back to bed herself and was asleep in a moment.

"Well," I said to myself, "if that's what a clear conscience will furnish I'm going to have a clear conscience." I went back to my room resolved never to enter any man's house again but my own, at least not for plunder. I went to bed and slept like a top for twenty-four hours.

I kept my resolution, found honorable employment and prospered. But I didn't forget the family that converted me. The mother was a widow, and, having a hard time to get on, I made her acquaintance and married her.

But none of my family know that I had been a burglar or how I came to know them.

Amador County  
Descriptive Article

Amador county comprises an area of 548 square miles. It lies on the western slope of Sierra Nevada mountains, and embraces within its territory all the diversity of valley, foothill, and high mountainous lands.

Climate.—The climate of the populous portions of the county is as genial and healthful as can be found anywhere in California. As climate is, one of the most valuable assets of this favored state in attracting population, Amador stands second to no county in this regard. It should, and no doubt will in time, when its climatic advantages are more thoroughly understood and appreciated, become a health resort not only for those in less favored states, but for the residents of other parts of California. The temperature alone the central portion rarely falls below 30 degrees above zero in winter, and as rarely rises to 100 degrees in the summer. Snow seldom falls in the settled districts, and never remains on the ground for more than a few hours. Of course, in the high mountain regions of eastern Amador the snowfall is very heavy—which is characteristic of the entire Sierra Nevada range. The summer season is always accompanied with cool nights; permitting of sound, refreshing slumber. Fogs are rare, cyclones are unknown, thunderstorms are infrequent.

Gold Mining.—The county, although rich in other sources of wealth, comparatively untouched, is noted principally for her quartz mines. The deepest gold mines in America are located here. The Kennedy mine is now taking gold in liberal quantities from quartz extracted from a depth of over 3000 feet below the surface, with every indication that the pay-ore extends to a much greater depth. Since the discovery of gold, the county has contributed fully \$100,000,000 to the world's supply of the precious metal. The mines are still yielding at the rate of about two million dollars annually. Nearly all of this wealth is produced by eight or ten mines operating on what is called the "mother lode," stretching clear across the county in a north-easterly direction a distance of twenty miles. The mines aggregate between 400 and 500 stamps, and furnish employment for over 1000 miners. This industry is still in its infancy. The unexplored territory, even along the main gold belt, is far in excess of the ground that has actually been worked or prospected. The county offers today one of the most inviting fields to be found anywhere in the world for the investment of capital in the fascinating business of gold mining, not alone along the mother lode, but also in the almost untouched mineralized country of the east belt, some ten or twelve miles from the main lode.

Besides gold, we have copper, deposits of pottery, coal, marble, slate, limestone, granite, and soapstone or talc—all undeveloped.

Agricultural Capabilities.—The agricultural possibilities equal, if not excel, the mineral riches. The valley lands will produce anything that can be grown in the most favored sections. In the foothill lands all kinds of deciduous fruits thrive; also all kinds of vegetable are raised where irrigation is practicable along the numerous water courses. Further up in the mountains, at an altitude of 2000 to 2500 feet, the soil is admirably adapted for apples and potatoes. A ready market for many times the quantity now raised of these commodities can be found in the various mining towns.

Grape culture and winemaking are becoming important industries, both the grapes and wine commanding a better price than the product of the lowland.

Land is cheap compared with other California lands. Improved farms may be secured for one-fourth the price current in some places. Unimproved lands can be had from \$5 to \$10 per acre. It does not require a fortune to buy a small ranch. There is room for a large addition to our agricultural population. Vast tracts now devoted to cattle ranges might be made the homes of hundreds of prosperous farmers.

Amador has a population of less than 12000. Three fourths of this is concentrated in a strip of three miles above and below the mineral belt.

Jackson, the county seat, has about 2500 inhabitants, and is an incorporated city of the sixth class. Other towns are Sutter Creek, Amador City, Drytown, Plymouth, Volcano, Pine Grove and Oleta. Ione City is the metropolis of the valley section, a thriving town of 1000 inhabitants.

The community is law abiding. Educational facilities are excellent. A schoolhouse is within easy reach of nearly every family. There is one high school, located at Ione.

The assessment roll for 1909 is \$5,800,793, and the tax rate for both state and county purposes \$2 on the \$100.

The Southern Pacific has a branch railroad running to Ione. From this point the Ione and Eastern railroad extends 14 miles further to the mining section.

The various religious denominations and fraternal organizations are well represented.

The power plant of the Standard Electric Co.—one of the largest in the world—located four miles from Jackson.

HANDLING SPRING BULBS.

How to Treat Them When the Plants Have Finished Blooming.

The national council of horticulture, through its press committee, has this to say of caring for spring bulbs:

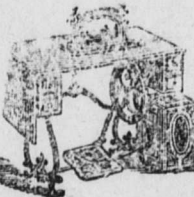

"When tulips, hyacinths and other spring bulbs are through blooming and the last blossoms have faded, pick off the seed pods and if possible leave the bulbs in the beds until the tops begin to turn yellow. This gives the bulbs a chance to ripen before digging them up.

"If it is wished to plant the bed with something else, the moment the bulb blossoms fade pick off the seed pods, as before, and dig the bulbs up immediately, using a spade, thrusting it deep into the ground below the bulb so as to pry it up. This should be done carefully, because the stems of tulips especially are brittle and break easily just above the bulb. When all the bulbs have been dug take them to a convenient place in the back yard and heel them in sand, covering them until the tops are dry.

"It is meant to dig a trench six inches deep and as long as the bulbs will fit in it. tops up, and cover with moist earth. In about two or three weeks, or when the tops are dry, dig up the bulbs and clean them. Remove all the old roots, tops and bulb scales and place the clean bulbs in shallow boxes, leaving them to dry thoroughly in the sun before storing them away. When dry put them away in a cool, dry place where they will not be reached by the sun.

"Although these suggestions apply principally to tulips because they are the most widely used of spring bulbs, the same treatment should be given hyacinths and narcissuses. Where the bulbs are left in the ground permanently do not pull the tops until they begin to turn yellow."

ANY LADY can easily make from \$18.00 to \$25.00 per week working for me quietly in her own home locality. This is a bona fide offer—one which will pay you to investigate, even if you can only spare two hours per day. No investment required. Turn your spare time into money. Write me at once for particulars. Address: HARRIET M. RICHARDS, Box 30, Woman's Building, Joliet, Illinois. jy 1-71m

How to Doctor Sick Chickens.

The following is an excellent remedy for sick chickens, says a chicken fancier: One teaspoonful of permanganate of potash in one quart of water. Take other water away from them, and when they become thirsty they will be glad to drink this. It is a cure-all. I had two hens that were sick. They became very thin, and their combs were very pale, and in time they died. Another hen started to go the same way, when I heard of this remedy. In two days' time there was a slight improvement, and before long she grew strong, and the color in her comb became brighter. Since then I have had no more trouble with sick chickens. Try it.

How to Make a Good Filter.

A homemade and economical filter that will filter the water satisfactorily is made from a flowerpot and charcoal. Take a large, clean flowerpot and put a sponge or a piece of clean moss over the hole in the bottom. Fill the flowerpot three-quarters full of equal parts of clean sand and charcoal. Over this lay a cloth large enough to hang over the sides of the pot. Pour the water into the cloth, and it will come out of the hole in the bottom of the pot clean and free from germs.

How to Wash Dress Shields.

Many think it is impossible to wash dress shields in other than cold water. They should first be dampened with cold water and covered with white soap rubbed into the covering. Put them into a basin and pour very warm water over them and let them stand until the water begins to cool, then scrub with a stiff brush. Rinse in cold water and let them gradually dry away from artificial heat. Do not attempt to press them.

"Little Englands."

The English always carry with them their national customs, and wherever they settle down, even for awhile, they organize "little Englands."—Paris Opinion.

A patient mind is the best remedy for afflictions.—Plautus.

Diarrhoea Cured.

"My father has for years been troubled with diarrhoea, and tried every means possible to effect a cure, without avail," writes John H. Zirkle of Philippi, W. Va. "He saw Chamberlain's Colic, Cholera and Diarrhoea Remedy advertised in the Philippi Republican and decided to try it. The result is one bottle cured him and he has not suffered with the disease for eighteen months. Before taking this remedy he was a constant sufferer. He is now sound and well, and although sixty years old, can do as much work as a young man." Sold by Jackson Drug Store, Spagnoli Prop.

CARE OF RUGS AND CARPETS.

How They Should Be Cleaned and Handled to Make Them Last.

A little systematic cleaning each month will preserve the life of a valuable carpet or rug for many years. Many women in their efforts to live up to the reputation of being good housekeepers literally beat the life out of expensive rugs. Handsome rugs should never be put on a line and beaten. They should be laid on the grass and whipped gently. They should then be turned over and swept with a stiff broom that has been dipped in ammonia water. This brightens the colors.

The professional cleaner often finishes off this clearing process by washing them off with olive oil soap and warm water. This seems to give new life to the wool in the rug. The long fringe on oriental rugs can be washed in the bathtub. Make a warm suds and dip the fringe up and down in the shallow water, being careful not to knot it. Then hang in the sun to dry.

Spots on carpets and rugs should be removed immediately and not allowed to stand until the next cleaning day. All sticky substances can be removed by sponging them with a mixture of alcohol and salt—about a teaspoonful of salt in a pint of alcohol. Spots caused by shoe or stove blacking should be covered immediately with cornmeal, then rubbed with a cloth and finally swept with a stiff brush. Ink spots if attended to immediately can be removed by an application of wet salt. Do not rub the spots, however. If they do not yield to the salt, then apply skim milk and salt alternately.

The use of tea leaves for sweeping has been abolished by wise housekeepers, as the copperas in them will in time ruin a good carpet. The wise woman spreads old newspapers over the carpet which she is going to sweep, first wetting them in ammonia water, about two tablespoonfuls of ammonia to a pail of water.

Salt is excellent to sprinkle on the floor before sweeping, as it helps to bring the color back to its original brilliancy, but it should not be used on a carpet with a heavy nap. For ingrained dirt it is fine. For heavy carpets like axminster and velvet first use the papers dipped in ammonia water and then go over the carpet with a flannel cloth wrung out in borax water.

Old pieces of outing flannel make the best rags for cleaning carpets. Next to this is old underwear on which there is no lint. If it is possible to get a beef gall, this is excellent for renovating faded and soiled carpets. Many butchers will save one for you if you notify them in advance. Open the gall tap and pour contents into a pail of warm water. Throw the bag away. Now wring out heavy cloths in the gall and water mixture and go over all the carpet, rubbing with a goodly amount of elbow grease. If this method is used two or three times a year it will be found well worth while.

Take Kodol at the times when you feel what you have eaten is not digesting. Kodol digests what you eat so you can eat sufficiently of any good, wholesome food, if you will just let Kodol digest it. Sold by City Pharmacy, F. W. Rusher Prop.

FROM OUR  
CORRESPONDENTS

AMADOR.

Aug 25—Amador has been without a correspondent so long that a few items might interest the people from here.

Mrs M. B. Church's sister, Mrs Law, who came from San Francisco to attend her sister during her recent bereavement, returns to her home tomorrow, taking Mrs Church with her. Mrs Clark and her daughter Elsie, are going to remain here until Mrs M. B. Church returns from San Francisco.

Miss Alma Trethewey, whose home is in Sacramento, has been visiting Misses Lizzie and Olive Venning.

Miss L. O'Brien, who has been visiting Mrs Kelly, returned to her home in Sacramento.

Mrs N. Keever, who lives at Martell, has been visiting with her daughter, Mrs O. Rancher.

Mrs Mayme Martell was over visiting her mother, Mrs Chappel. She returned to Sutter Creek Monday.

A gay party of young people came over from Jackson in a three seater automobile Tuesday night. They stopped at the Imperial hotel, and returned late in the evening.

Mrs J. Phipps jr., has been visiting Mrs J Beskeen in Jackson, who is staying with her mother.

Mrs Green, an old resident of Drytown, who has been visiting Mrs Church, returned Monday morning. The Ladies Aid of the Amador M. E. Church are going to have a social on Saturday next in the old Kirkland store. A large attendance is expected.

Mr and Mrs Banker of Arizona are visiting the latter's mother, Mrs Calbert. Mr Banker is superintending a mine in Arizona.

Miss May Kelly was a passenger on the outgoing stage to San Francisco to take her vacation before opening her school in Drytown.

The chief machinist at the Keystone, D. J. Cambell, was hurt last Sunday night, falling over 50 feet down the rock breaker; shute. He has improved very much.

The Amador orchestra, consisting of George Nichols and wife, and Lucia Kerr, gave a social dance last Saturday night, and there was a large attendance. They expect to repeat these good times if the town wants them to.

A fishing party consisting of Salem Bonneau, Miss Hartwick, Miss Hazel Whitehead, Miss May Kelly, and others, went to Volcano early Sunday morning. They returned with five fish.

Mrs Con O'Neil was over visiting her husband, who is boarding at the Imperial hotel.

Miss Enid Joy was a passenger on the outgoing stage for Martell Monday morning and returned in the evening.

Miss Myrtle Bonneau returned to Volcano Sunday.

The California Consolidated Co. expects to have 60 stamps dropping at the Keystone, by the 1st of September.

The Ladies' Aid of the M. E. church are considering a baby show in the near future. As there are so many new lovely babies in town it will be hard to award the prizes. The judge will have to be proof against abuse and hair pulling.

Mrs C. McCannet, who has been visiting with her mother, Mrs Culbert, returned to Los Angeles Saturday.

DEFENDER.

Aug. 17th.—Tourists are returning from the mountains and lakes every day, on the way to their home in the cities and valleys.

Others are still going to the Lakes. Mr and Mrs Williams from the Preston school are on a vacation, and on their way to cooler regions than they left at home. They spent a few days at Will Blakeley's, having a jolly good time.

The Kimball Bros. are hauling ore to the Defender mill, where they expect to crush the rock.

Hauling logs is going on in earnest. Load after load passes through Defender district on the way to Jackson and the mines. There is just galore since there is so much traffic.

Jess Werely came home from Madera county, where he was employed. He was called home by his brother's death. Jess will return to his work after a short visit with his parents at Antelope district.

Mr Henry and wife made a hasty trip to Cook's station last Sunday, returning the same day.

J. P. Harker has been on the sick list for several days past. He is on the improve at last report.

Busy Bee.

Children Cry  
FOR FLETCHER'S  
CASTORIA

PLYMOUTH

Aug. 25—Tom Norman of Sacramento is here as the guest of his brother, Dr. W. A. Norman.

Mr and Mrs Carter of Oakland arrived here Saturday evening, and are staying at the Forest House.

Miss Marie Weston and Mrs Laura Butler visited friends and relatives in Oleta on Friday last.

Mrs Green of Placerville is visiting relatives here.

Mrs O'Toole, who has been staying in Nevada for several months, returned last week, bringing her little granddaughter with her.

Frank Cooper, who has been working on the Jameson threshing machine, has returned to his home here.

Messrs Clarence Weston, J. E. Walton, N. E. Wheeler, and H. E. Potter went to Placerville on Monday last to attend the trial of Pettus.

Mr and Mrs Richardson of Elk Grove, formerly of this place, are visiting friends here.

Robert Wilson, who has been employed at the Kennedy mine, has returned to his home in this place.

Mr and Mrs Burke made a business trip to Sutter Creek on Monday last.

A force of men started to work on the Orr claim Monday morning. Plymouth is not so slow.

Fay Chadbourn has been on the sick list for the past week, but is on the improve now.

Harry Weston was a passenger on the overland stage Saturday morning, en route for Sacramento where he will remain indefinitely.

Merwin Leach returned Sunday last from Kirkwoods, where he has been spending his vacation.

Martin Potter of Sacramento is here on a visit to his uncle and aunt, Mr and Mrs L. G. Griffith.

Walter Bail and family left for the hop-fields on Sunday last.

Mrs Kelly returned to her home in Jackson, after spending a few weeks with her granddaughter, Mrs H. E. Potter.

Mrs D. Burke and daughter Annie of Jackson drove over Sunday on a visit. Mrs Burke returned Monday. Annie remained as the guest of Mrs L. Burke.

K. W. Ketcham, a former resident of this place, died at his home in Woodbridge, August 22. Deceased was a member of Plymouth I. O. O. F. Lodge, No. 260.

Dr. Boyson left for San Francisco Tuesday morning. Wild Roses.

SUTTER CREEK.

Mrs Louise E. Gill has purchased the business fruit stand, etc., of Jas. Jory and took possession last Tuesday. Mr Jory has returned to the mine, being employed at the South Eureka.

John Radditz and daughters, Misses Minnie and Pauline, returned Saturday evening from a short visit in San Francisco.

Mrs Geo. Clarkson of Colorado, is visiting her sister, Mrs. Martha Smith, for a few days.

Mrs Mary P. Shealer, left a short time ago, for Gardnerville, Nevada, where she will keep house for her son Raymond, who is in business at that place.

Charles Mulock, was an outgoing passenger, Sunday morning, en route to Stockton, where he expects to reside in the future.

Miss Blanche Kerfoot, who is living in Sacramento, training for a nurse, is home here, visiting a short time with her parents, Mr and Mrs J. Kerfoot.

Mr and Mrs John Ross left for Rhyde, on the Sacramento river, a few days ago, called there by the illness and death of Mr Ross's father, who died at the residence of his daughter, Mrs Hanson, at that place Wednesday.

After having enjoyed a pleasant outing at Santa Cruz for several weeks, Mrs Frank Sorocco and children, Mrs Carlo Sorocco, and Mrs Brignoli returned to their home Wednesday evening.

Mrs Pearl Davis and four little daughters departed for their homes in Bakersfield this morning after a pleasant visit with her mother's sister, Mrs Fogarty and daughter.

Edward Jones arrived here Monday evening, from Vallejo, being in the employ of the government at Mare Island, Mr Jones, is home for a brief visit with his family.

Miss Hazel Perkins and sister, Edna, returned to their home in Stockton Tuesday, after a pleasant two weeks visit with friends here.

Shocked at Electra

An employe at the power plant at Electra named F. A. Herrum, while at the switchboard, was "arc" struck. A current struck him in the face, neck, and upper part of his body, burning him severely, but not fatally. This occurred yesterday. The mishap will disable him for a couple of weeks.

CASTORIA.  
The Kind You Have Always Bought  
Bears the  
Signature  
of  
J. C. Fletcher

From Our Exchanges.

Tuesday afternoon last a fire started in the timber yard at the Eazy Bird mine and destroyed all the timber in the yard, some 20,000 feet. The flames also caught in the underbrush on the hillside, and before it could be got under control burned considerable timber that was out and left on the hillside to dry. The entire force at the mine turned out and it was through their efforts that some of the timber on the hillside was saved. The loss will reach over a thousand dollars.—Citizen.

K. M. Mein, M. E., from Oakland, for a number of years slightly connected with the Oneida Mining Co., arrived in Sutter Creek last week and remained with us until Sunday. The gentleman was here investigating the strike made on the property some months ago by a lessee who has been shipping some good ore to Selby's. While we have no definite information, there is reason to believe the Oneida mine will be reopened again at no distant day.—Record.

There have been rumors during the week to the effect that the extensive property of the Utica Company at Angels including the big ditch and electric plant of the Union Water Company, had been, or was about to be sold. The story even went so far as to include the Lightner and other mines of Angels. We have made some inquiry about the matter in quarters where the facts would most likely be known and are led to the conclusion that the whole story is mere rumor.—Prospect.

On Tuesday last S. T. Gage, for the Grant, made a large shipment of steers to Miller & Lux. It is the remaining delivery of a sale made a month ago. The lot sent away last Tuesday numbered 385 head and filled a train of fifteen cars. They will be taken to one of the Miller & Lux ranches and fattened for the San Francisco market.—Echo.

The tragic death of Mrs Stewart Perkins at Negro Hill in the western part of the county, near Folsom, last Sunday, cast a gloom over all the surrounding neighborhood where she was highly esteemed by all. Mrs Perkins was about to prepare lunch for her husband who had gone to Folsom to meet her daughter, who was returning from Sacramento. She lit a coal-oil stove to avoid heating the house with the range, when it exploded covering her with burning oil. She attempted to put out the flames by wrapping herself in a blanket. Failing in this she rolled upon the ground and called for help. Neighbors went to her assistance, but by the time they extinguished the flames Mrs Perkins had been terribly burned. She was taken to Folsom for medical treatment but died shortly after arriving there, being unable to stand the shock. She was 63 years of age and had lived in the vicinity of Negro Hill for thirty-three years. She is survived by a husband and five children. The Perkins home was destroyed by fire.

Mrs Perkins was buried from the M. E. Church, of Folsom, of which she was a devoted member, on Monday.—Mt. Democrat.

DeWitt's Little Early Risers, the pleasant, safe, sure, easy little liver pills. A salve you may always depend upon in any case where you need salve, is DeWitt's Carbolicized Witch Hazel Salve—especially good for Piles. Sold by City Pharmacy, F. W. Rusher Prop.

Better Not Get  
Dyspepsia

If you can help it. Kodol prevents Dyspepsia, by effectually helping Nature to Relieve Indigestion. But don't trifle with Indigestion.

A great many people who have trifled with indigestion, have been sorry for it—when nervous or chronic dyspepsia resulted, and they have not been able to cure it. Use Kodol and prevent having Dyspepsia.

Everyone is subject to indigestion. Stomach derangement follows stomach abuse, just as naturally and just as surely as a sound and healthy stomach results upon the taking of Kodol.

When you experience sourness of stomach, belching of gas and nauseating fluid, bloated sensation, gnawing pain in the pit of the stomach, heart burn (so-called), diarrhoea, headaches, dullness or chronic tired feeling—you need Kodol. And then the quicker you take Kodol—the better. Eat what you want, let Kodol digest it.

Ordinary pepsin "dyspepsia tablets," physics, etc., are not likely to be of much benefit to you, in digestive ailments. Pepsin is only

a partial digester—and physics are not digesters at all. Kodol is a perfect digester. If you could see Kodol digesting every particle of food, of all kinds, in the glass test-tubes in our laboratories, you would know this just as well as we do.

Nature and Kodol will always cure a sick stomach—but in order to be cured, the stomach must rest. That is what Kodol does—rests the stomach, while the stomach gets well. Just as simple as A, B, C.

Our Guarantee

Go to your druggist today and get a dollar bottle. Then after you have used the entire contents of the bottle if you are honestly say, that it has not done you any good, return the bottle to the druggist and he will refund your money without question or delay. We will then pay the druggist for the bottle. Don't hesitate, all druggists know that our guarantee is good. This offer applies to the large bottle only and to but one in a family. The large bottle contains 2 1/2 times as much as the fifty cent bottle.

Kodol is prepared at the laboratories of E. C. DeWitt & Co., Chicago.

SUPPOSING

that every salary and wage earner within the radius of the influence of this bank should deposit their salary or wage each month or week here and pay their bills by writing checks against their accounts, what would be the result? The result would be a large amount added to the circulating medium of the community, business would be stimulated, the teachers, clerks or laborers thus depositing their money would have their own convenience greatly conserved, and they and others would be benefited. You double the power of your money when you put it in a bank.

Bank of Amador County Jackson, California.

BANKING BY MAIL

The Stockton Savings and Loan Society with resources of \$4,000,000.00 offers every facility for doing a banking business by mail. Checks taken payable in any part of the United States. Our system of banking by mail practically brings this great bank to your door. To open an account with us, place the amount you wish to start within an envelope addressed to us and by return mail you will receive a bank book showing the amount of your deposit. The United States mails are safe and no one ever lost a dollar in this way. We solicit the accounts of farmers, business men and others and assure them courteous and liberal treatment.

## LOCAL NEWS

J. F. Wilson, Dentist. Hours 9 a. m. to 5 p. m. Phone—Office, black 444; residence, black 394; Jackson.

Mrs. M. W. Folger, formerly post-mistress of Jackson, arrived Friday evening from Seattle, where she has been a resident for the past year, or rather she has been occupying a small berry ranch a few miles out of the city. She intends to make her home in California hereafter, probably at Vallejo. She came to Jackson on a visit, and to look after her property interests. She will remain here several weeks. Her son George Folger, came up from Vallejo Sunday on a short vacation. He is employed at Mare Island navy yard.

Mrs. David Hall returned from Seattle Friday evening, after a visit to the Alaska exposition.

Geo. H. Salzgeber was in Jackson Saturday, seeing his many friends and acquaintances in this section. He has been employed by the Pacific Gas and Electric corporation for the past eight years, and started at digging post holes for the power line of the Standard Electric Company. He has been promoted from time to time, and now holds a prominent position at Byron, Contra Costa county, having the management of the company's business at that point. He has been on a short vacation visiting his folks, who are residents of Ione.

Dr. Victor Mouter, who has been visiting his parents in Jackson for the past month, left Monday morning for the state of Washington. He recently graduated in medicine and surgery from a Michigan college, and intends to settle in the practice of his profession at some point in Washington state.

Miss Kate Driscoll, who is teaching school in San Joaquin county, is spending her vacation at her home at Scottsville, until her school resumes.

Miss Dorothy Sargent left Sunday morning for Lodi, to attend the high school of that city.

The local chamber of commerce held no meeting this week, on account of the absence of the president, C. P. Vioin, who has been out of the county. He returned Tuesday evening.

Judge Wood and son returned from a short stay at Kirkwoods and Silver Lake last Sunday. Mrs. Wood returned Tuesday from a trip to Oakland.

The officers of Jackson Miner's Union are making arrangements for the celebration of labor day on September 6. The programme will be announced in a day or two. Jas. E. Dye, has taken the place in the Bank of Amador county left vacant by the resignation of R. J. Kerr. He is a thorough accountant and book keeper.

Piano for sale, little used, cash \$475 sells for \$190. Piano experts say good as new. Inquire Ledger office, 39 2-m.

Miss Carrie Anthony left Tuesday morning for Stockton for a short visit.

Dr. J. D. Fogarty, dentist, Jackson. Office in Kay's building, Main street. Hours from 9 a. m. till 5 p. m. Telephone, Black 363.

The Rt. Rev. Monsignor McCarthy of Fresno will celebrate mass in St. Patrick's Church on Sunday next at 9 a. m.

A monkey and snake show struck Jackson Friday afternoon last. The proprietor gave an exhibition from his own wagon on a vacant lot on Water street, and those attending say it was a creditable affair. The showman makes a business of selling monkeys, and finds no trouble in disposing of these mischievous animals at good prices. In fact, he cannot get the monkeys fast enough to supply the demand. How many in Jackson were captivated by the monkey shine business to the extent of investing we have not learned.

Miss Hattie Heminghofen of Mokelumne Hill, was in Jackson Wednesday tiding her friends goodbye, on the eve of her departure for New York, to visit a married sister there. She expects to be away a year. She left yesterday via the Amador Central, and will proceed direct to New York.

J. Griggs was a passenger on the stage for Martell yesterday morning bound for Sacramento to meet his wife from England. It is six years since they parted in the old country. They will make their home in this city, having rented the furnished residence formerly occupied by Phil Roberts on Stump street.

Mrs. J. Cuneo and daughter left yesterday morning for San Francisco, on a short visit with friends in that city.

It may be stated now, without any doubt, that the State Fair which opens in Sacramento on the twenty-eighth of this month will be the best ever held in California.

W. F. Dixon, the manager of the Ledger contest, left Friday afternoon, accompanied by Mrs. Dixon, for Sacramento. They took an auto from the local garage for Ione, and thence by freight train for Galt.

The Angels brass band struck Jackson Sunday evening, homeward bound from an outing to Lake Tahoe and other mountain resorts. During their brief stay in town they gave a serenade on Main street, and proved themselves to be well up in their profession.

The biggest clubbing offer ever made. Amador Ledger and Bulletin—the leading evening daily paper of San Francisco, only \$3 per year, in advance. Subscribe now.

The Cornish Post, published at Camborne, Cornwall, England, announces the wedding of Sidney Dyer, late of Jackson, to Miss Minnie Ferrill, of St. Day, Cornwall. The wedding took place August 6 at St. Day church. The groom was known in Amador county as Guernev, the name of his adopted parents.

A dress was stolen from a box on the porch of T. J. Burrow's residence on Pitt street a few days ago.

The truck for hauling freight from Martells to Jackson was to make its initial trip to-day. It will be run with two horses. It has been fixed with a brake that operates to a nicety.

A new state traveling library of 50 volumes has just been received at Rubser's pharmacy, for free circulation.

On Thursday, Friday, Saturday and Sunday, a windstorm of unusual force occurred in the high sierras in the vicinity of Silver Lake. Such storms are usually precursors of rain, but not a drop of moisture followed this long continued blow.

Johnny Love returned from Kirkwood's on Thursday, after a two months' stay in the mountains for his health.

Urban Spagnoli, Miss Roma Spagnoli and Miss Grace Sutherland returned from a weeks' visit at Kirkwoods on Wednesday last.

### DOCUMENTS RECORDED.

The following instruments have been filed for record in the recorder's office since our last report. We publish a complete list of documents recorded, and must decline to accede to any request to suppress any document from these columns. Don't ask us to do so.

Deeds—Thomas H Richards to Elizabeth Richards, part of lot 8 block 3, Amador City, deed of gift. Phoebe Richard to Matilda Dennis, part of lot 16 block 22, Sutter Creek, \$5.

Mortgages—C D Chapman to H S Tallon, lots 20 and 30, block 2, Jackson, \$1200, payable thirty days after demand with interest at the rate of ten per cent per annum.

Water Right—T J Phillips locates 150 inches in Hambury gulch near Stewart's reservoir. Volcano, for domestic, irrigation and mining purposes.

Proof of Labor—Geo W Hadley on Treasure Hill gravel claim on lot 3 in 4-7-12.

Satisfaction of Mortgage—Reynolds to Chapman.

Notary Bond—John Blower files his bond as notary public with C G Devore, L G Griffith, Geo H Brown and R M Brown, each qualifying in the sum of \$2500.

## Fatal Fall.

An accident that terminated fatally in a few hours occurred at Volcano during Wednesday night, the victim being an Italian named Antone Ratto, aged 86 years. Deceased and brother named Ben Ratto lived in a cabin on the edge of the town. They occupied themselves by doing a little gardening. The cabin stands ten feet from the ground, a flight of steps leading up to the doorway. During the night the older brother, Antone, arose from his bed, and attempted to go through the door, failing to the bottom of the steps. How it happened no one knows. He was found by his brother shortly afterwards, and medical aid was summoned. He sustained internal injuries, and although semi-conscious for a while, he was unable to give any account of the mishap, suffering so intensely from internal injuries. He died Thursday afternoon. Deceased was a gardener at the Paramino place in Jackson for a number of years. Besides the brother in Volcano, he leaves a brother at Mokelumne Hill. He was an uncle of Rose Ratto of the National hotel, and Joe Ratto of the Union livery stable of this city. He came to Amador county in 1856 or 1857 from Italy. He never learned the English language. It is thought that he has a family in the old country, but nothing is definitely known on that point.

## City Real Estate.

We sell large improved lots in the heart of the city of Santa Cruz. Lots 40x100 villa sites. Prices \$100 to \$300. Terms if desired. Discount for cash. For pamphlets and further information call, write or phone, K. N. Edwards, National Hotel.

### Marriage Licenses.

Two marriage licenses were issued on last Tuesday as follows: Giuseppe Bianchi, Italy, aged 31, residing at Jackson and Louisa C. Devenenzi, California, aged 21, residing at Volcano.

Dante Bardoni, Italy, aged 25, residing at Stockton, and Della M. Mori, aged 21, residing at Jackson.

If you haven't the time to exercise regularly, Douan's Regulets will prevent constipation. They induce a mild, easy, healthful action of the bowels without gripping. Ask your druggist for them. 25c.

## Silver Wedding.

David Kerr celebrated the 25th anniversary of his wedding one day this week in an appropriate manner, with a number of intimate friends and relatives. The interesting affair was held at the residence, at Kerr station near Martell depot. An enjoyable time was had by all, and the couple were the recipients of a number of appropriate presents.

### MILTON DAVIS WANTED.

Milton Davis and his brother will learn something to their advantage by communicating with Mrs. W. S. Davis, East Auburn, California. The Davis boys are supposed to be mining somewhere in Amador county. Their friends will kindly call their attention to the above.

### Washington's Plague Spots.

lie in the low, marshy bottoms of the Potomac the breeding ground of malaria germs. These germs cause chills, fever and ague, biliousness, jaundice, lassitude, weakness and general debility and bring suffering or death to thousands yearly. But Electric Bitters never fail to destroy them and cure malaria troubles. "They are the best all-round tonic and cure for malaria I ever used," writes R. M. James, of Louisville, S. C. They cure Stomach, Liver, Kidney and Blood Troubles and will prevent Typhoid. Try them, 50c. Guaranteed by Jackson Drug Store, Spagnoli Prop.

## City Work

The city authorities are laying a line of large sewer pipe across the Sutter Creek road, near the old Hoffman residence. The pipe is for the purpose of carrying off surface water. It is being laid at a sufficient depth to avoid all danger of breakage by the passing of heavy loaded freight teams.

The city is negotiating for the privilege of using the rock of the Alma mine dump for street purposes. The rock is said to be good material for macadam, and the city is ready to pay a reasonable price for the rock. It is handy for use on the streets in the northern part of town, and would save hauling for nearly a mile from the Anita dump, which is the present sole source of supply. The cost of hauling the extra distance is greater than a reasonable purchase price for the material at the proposed source of supply. So far the city has been unable to make any definite arrangements for the rock.

## To Be Sold For Delinquent Taxes.

The sale of the Dwyer property (a Murphy's ridge) is advertised to take place to-morrow, by order of the state controller, in front of the court house. A man named Everett of Calaveras has petitioned for the sale. The property comprises mineral and farming land. The Odd Fellows lodge of Jackson has a mortgage on a portion, and this part was allowed to go delinquent one year, and has never been redeemed. They are anxious to redeem, and this part will likely be segregated, and excluded from the sale.

There will be no dull days at the State Fair, as every day will have its big special event.

### BORN.

JONES.—In Electra, August 25, 1909, to the wife of Will Jones, a son.

BURROW.—In Jackson, August 25, 1909, to the wife of T. J. Burrow, a daughter.

MORROW.—In Sutter Creek, August 23, 1909, to the wife of Charles Morrow, a daughter.

### DIED

KETCHAM.—In Woodbridge, August 23, 1909, Richard White Ketcham, a native of New York, aged 84 years.

EHLE.—In Silver City, Nev., August 22, 1909, Amiel Ehler, a native of California, aged 28 years.

RATTO.—In Volcano, August 26, 1909, Antonio Ratto, a native of Italy, aged 86 years.

## Does not Color the Hair

### Ingredients of Ayer's Hair Vigor

Sulphur. Destroys germs that cause dandruff and falling hair. Cures rashes and eruptions of scalp. Glycerin. Soothing, healing. Food to the hair-bulbs. Quinin. A strong tonic, antiseptic, stimulant. Sodium Chlorid. Cleansing, quiets irritation of scalp. Capsicum. Increases activity of glands. Sage. Stimulant, tonic. Domestic remedy of high merit. Alcohol. Stimulant, antiseptic. Water. Perfume.

Show this formula to your doctor. Ask him if there is a single injurious ingredient. Ask him if he thinks Ayer's Hair Vigor, as made from this formula, is the best preparation you could use for falling hair, or for dandruff. Let him decide. He knows. J. C. AYER COMPANY, Lowell, Mass.

## COUNT THE DOTS.

Free! Free!

Over \$3000 in prizes given away to those sending the neatest correct answers

Do You Want a PIANO?

Do You Want a SEWING MACHINE?

Do You Want a PHONOGRAPH?

If So, Enter This Contest.

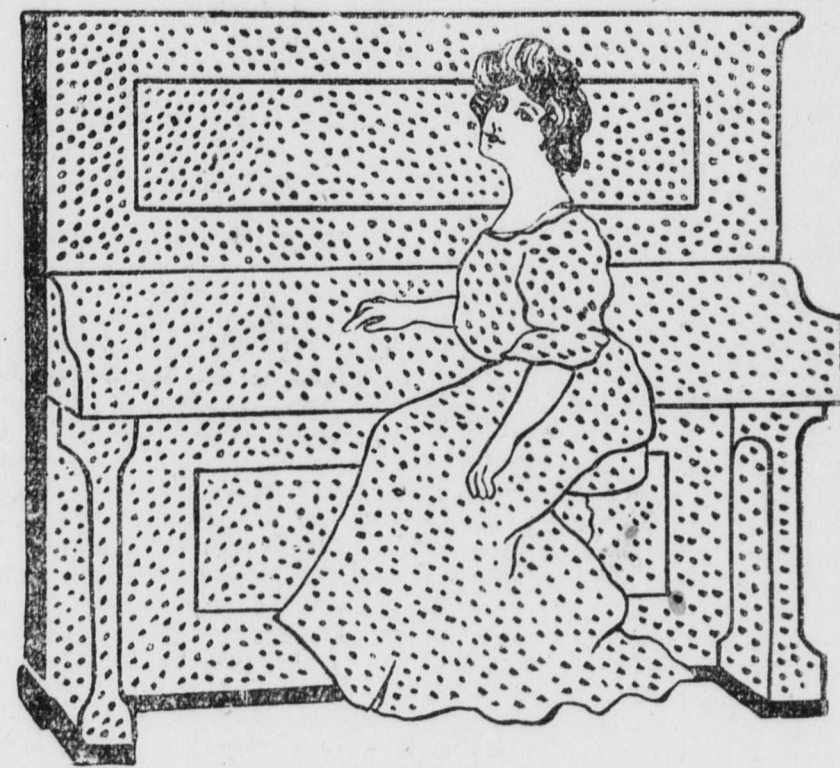

The Schulz Piano Company has given us a certain amount for advertising purposes. Other piano factories not to be outdone, have given even more. This gives us a large sum to distribute in the following novel manner for advertising purposes and saves the heavy expense of advertising in magazines and by piano salesmen.

- 1st Grand Prize, \$400.00 Mahogany case piano,
- 2nd prize, Drophead sewing machine,
- 3rd " \$40.00 Phonograph and 12 records,
- 4th " \$45.00 Violin,
- 5th " \$40.00 Guitar,
- 6th " \$30.00 Mandolin.

500 Art Pictures will be given away to those who call at our store and other cash value prizes to the value of \$5000 will be given to contestants. Everyone answering will be rewarded.

Its Easy, simply count the dots within the outline of the piano and lady, do not count the dots on the face.

Answer to the best of your ability whether correct or not, everybody that answers will share in the \$5000 cash value distribution. In former contests, prizes have been evenly distributed and those living out of town will have the same chance as those in town.

### CONDITIONS.

Only one in a family and no one engaged in the music business, or employee of this store or winner of prizes in our former contests, will be eligible as contestants.

The representatives of the Stockton papers will act as judges. The contest will be run fairly and contestants must abide by the decision of the judges.

If no one sends a correct answer, the prizes will be awarded to those sending the nearest correct.

If more than one correct answer is sent in, neatness will be considered in making the awards.

Contest closes at 4 P. M. Aug. 31, 1909, Send your answer with full name and address to

McNEIL CO., CONTEST DEPARTMENT,

Elks' Building,

Stockton, Cal.

## Dr. Endicott Will Visit East

Dr. E. E. Endicott has been elected delegate to the grand lodge of Eagles to represent the local lodge. The grand lodge meets in Omaha on September 13 to 18 inclusive. He will leave here about the 7th or 8th of next month. He will meet the other delegates from this state at Stockton, and from there proceed in a special car via the Santa Fe route to Omaha. The car will carry for advertising purposes, an exhibit of the products of this state, and Dr. Endicott will take along some mineral specimens so that Amador county may be represented. He has arranged for some gold nuggets from the Garibaldi and Sanitro gravel claims at Volcano. Before he returns the doctor will visit his old home in Missouri. It is eleven years since he saw the home folks. He expects to be gone about a month.

### A Faithful Friend.

"I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy since it was first introduced to the public in 1872, and have never found one instance where a cure was not speedily effected by its use. I have been a commercial traveler for eighteen years, and never start out on a trip without this, my faithful friend," says H S Nichols of Oakland, Ind. Ier. When a man has used a remedy for thirty-five years he knows its value and is competent to speak of it. For sale by Jackson Drug Store, Spagnoli Prop.

# THE DIRECT PRIMARY LAW

Fully Explained by Its  
Author

Here is Senator Wright's exposition  
of the law which bears his name.  
Cut it out for reference.

San Diego, Cal., July 16, 1909.

Hon. C. F. Curry,

Secretary of State,

Sacramento, California:

Dear Sir: At your request and for  
the purpose of giving the voter a  
clear and comprehensive grasp of the  
California direct primary law, I  
have prepared the following state-  
ment of its provisions, in narrative  
form, stripped of all legal verbiage.

Under the old convention system  
party candidates were nominated by  
the majority vote of assembled dele-  
gates. The new direct primary law  
provides that all party candidates  
shall be nominated by the voters of  
the respective political parties. Each  
party voter will now discharge the  
duty which heretofore devolved upon  
the party convention delegate. The  
primary election, therefore, will  
hereafter perform the function of  
party conventions.

Two methods remain of obtaining a  
nomination for office. Party nomi-  
nation must be made in the manner  
provided under the direct primary  
law enacted by the state legislature  
in 1900. Independent nominations  
may be made by petitions signed by 3  
per cent of the voters of the district  
for which the nomination is to be  
made.

All party nominations for the  
general election, held in November,  
will be made at a primary election  
held on the preceding third Tuesday  
in August.

Separate and distinct printed  
ballots in blocks of 100 for each polit-  
ical party will be provided at the  
polls. The republican ballot will  
contain the name of each republican  
aspirant for nomination who has  
complied with the provisions of the  
primary law and who is entitled to  
receive republican votes. This is  
also true of the ballots of the  
democratic, socialist and other  
parties.

## Conducting Primaries

The primary election at the polls  
conducted in every respect as at a  
general election. The voter stamps  
an X in the square opposite the name  
of his choice for a candidate for  
each office for which the nominations  
are to be made, the same as he may  
stamp it in the square opposite the  
name of his choice for each office at  
a general election. The primary  
election officers perform the same  
functions as the general election  
officers, and ballots are folded and  
cast as at a general election.

The votes at the close of the polls  
are counted in the manner of general  
elections, and the returns are made  
to the board of supervisors, or proper  
election commissioners. The re-  
turns are then canvassed in the  
manner applicable to general  
elections and the candidate for  
nomination receiving the highest  
number of votes is declared the  
nominee of his party. Thus, if there  
should be two or more candidates for  
governor upon the republican ticket  
and two or more candidates for the  
nomination of governor on the demo-  
cratic ticket, the person receiving  
the highest number of republican  
votes at the primary election would  
be declared the republican nominee  
for governor, and the democratic  
candidate for nomination receiving  
the highest number of democratic  
votes would be declared the demo-  
cratic nominee for governor. In this  
manner the nominations are made  
for each office by each political  
party. Thus, by the use of separate  
ballots, all parties make their nomi-  
nations at the direct primaries pre-  
sided over by the same officers of  
election.

## What Aspirants Must Do.

In order that an aspirant for a  
party nomination may have his name  
printed upon the party ballot and be  
voted for at the primary election, he  
must comply with certain require-  
ments.

If he is a candidate for an office to  
be voted for at a November election  
he must at least 30 days prior to the  
third Monday in August, file nomi-  
nation papers.

If he is a candidate for a state office  
these nomination papers must be filed  
with the secretary of state; if for a  
county office, with the county clerk,  
and if for a city office, with the city  
clerk.

The nomination papers consist of  
the affidavit of a given number of  
qualified electors, stating that they  
are electors, the precinct in which  
they vote, and that they nominate  
the person named as a candidate for  
the nomination of their party for the  
office designated, and also stating  
that they will support the candidate

named. The nomination paper con-  
sist of the required number of the  
sworn statements, together with the  
affidavit of the candidate, in which  
he states, among other things, the  
name of the party and the office for  
which he desires to be a candidate;  
that he is affiliated with his party at  
the last general election, and that if  
nominated he will accept the nomi-  
nation and not withdraw, and that he  
will qualify as such officer if nomi-  
nated and elected.

For the purpose of obtaining the  
necessary signatures to the nomination  
papers, the candidate may appoint  
one or more verification deputies,  
who shall qualify by filing with the  
county clerk an affidavit stating that  
he has been designated as such  
deputy and that in obtaining the sig-  
natures he will observe the election  
laws of the State of California in so  
far as they are applicable. The law  
provides that a voter shall sign but  
one nomination paper for the same  
office. Nomination papers shall be  
bound together by precincts, arranged  
alphabetically by surnames and  
numbered. If the nomination papers  
are for a candidate to be voted for in  
more than one county, they may be  
bound together by counties.

## County Clerk's Duty.

It is made the duty of the county  
clerk to examine all nomination  
papers and ascertain if the signers  
are qualified voters, and he shall affix  
his certificate to the nomination  
papers, reciting that he has examined  
them, and stating the number of  
signatures, and if the nomination  
papers are for a candidate to be  
voted for in more than one county, the  
nomination papers with the certificate  
of the clerk attached must be for-  
warded to the secretary of state for  
filing. At least 25 days before the  
August primary the secretary of state  
must certify a list to each county  
clerk containing the names and post  
office address of each person for  
whom nomination papers have been  
filed in his office, together with a  
designation of the office for which  
such person is a candidate and the  
party he represents.

A candidate for a state office or  
United States senator must file nomi-  
nation papers with signatures repre-  
senting in their aggregate not less  
than 1 nor more than 10 per cent of  
the total vote of his party in the  
state, and these signatures must come  
from at least 10 different counties,  
and from each county the signatures  
must represent at least 1 per cent of  
the party vote in each county.

A candidate for representative in  
congress or any office voted for in  
any district comprising more than  
two counties, and less than the entire  
state, must file nomination papers  
containing signatures representing at  
least 2 per cent of the voters of his  
party in such territory, and the  
signatures must come from at least  
one-tenth of all the election pre-  
cincts in each of at least one half of  
the counties comprising the district.  
The signatures must aggregate not  
less than 2 per cent nor more than 10  
per cent of the total party vote of  
such district.

## As to Candidates for Congress

A candidate for representative in  
congress or other office to be voted  
for in a district comprising two  
counties must file nomination papers  
signed by at least 2 per cent of the  
voters of his party in such territory,  
and they must come from at least  
one-sixth of the election precincts of  
each county. The signatures must  
aggregate not less than 10 per cent of  
the total party vote in such district.

A candidate for office voted for en-  
tirely within one county, or city, or  
other political subdivision, must file  
a petition signed by at least 3 per  
cent of the party vote in such district  
and these signatures must come from  
at least one-fourth of all the election  
precincts within the district from  
which such officer is to be voted for.  
The signers must aggregate not less  
than 3 per cent nor more than 10 per  
cent of the total party vote in such  
district.

The basis of percentage is upon  
the party vote for presidential elector  
receiving the greatest number of  
votes at the last presidential election.

If a political organization or party  
had no candidates for presidential  
electors at the last preceding presi-  
dential election, but had individual  
nominees who polled 3 per cent of  
the total vote cast at such election,  
then this shall form the basis of  
estimating the percentage required  
for candidates from such political  
organization.

A filing fee of \$25 is charged for  
filing nomination papers with the  
secretary of state, except for members  
of the state legislature. When nomi-  
nation papers are filed with the  
county clerk the fee is \$10, except  
that no fee is charged for the nomi-  
nation papers of a candidate for an  
office that pays no compensation.

Election notices must be published  
by the county clerk with the proper  
party designation giving the title to  
each office, the names and addresses  
of all persons for whom nomination  
papers have been filed, date of  
election, the hours during which the

polling places will be opened and  
designating the polling places in each  
precinct. This notice must be  
published for at least two weeks prior  
to the election and must contain a  
list of all officers for which nomi-  
nations are to be made at the forth-  
coming primary election.

## Election Supplies

The law makes it the duty of the  
county clerk to furnish the election  
supplies and election ballots for each  
party, and the law prescribes the  
form and size of the ballot.

Within time to allow for the cor-  
rection of any errors that may occur  
in the ballots, sample ballots are to  
be submitted, to the chairman of the  
various party committees.

It is the duty of the officials  
charged with the canvass of the pri-  
mary election returns to cause to be  
issued certificates of nomination to  
each candidate who has received the  
highest number of votes of his party,  
and it is the duty of the secretary of  
state to issue nominations certificates  
to all candidates nominated for rep-  
resentatives in congress and officers  
voted for in more than one county.  
The secretary of state shall also  
certify to each county clerk the name  
of every person nominated at the  
primary election who is to be voted  
for in more than one county and  
whose name is to appear on the  
general election ballot to be used at  
the November election.

It has also been made the duty of  
the secretary of state to compile the  
advisory vote for United States  
senator in congress and send a state-  
ment of the same to the speaker of  
the assembly and the president of  
the senate on the first day of the  
ensuing session.

The act designates the purposes for  
which expenses may be legally in-  
curred by candidates seeking nomi-  
nation at the primary election. These  
legitimate expenses include filing  
fee, circulation and verifying nomi-  
nation papers, the candidates' person-  
al expense of travel, rent and neces-  
sary furnishings of halls or rooms  
during the campaign for public meet-  
ings, or committee's headquarters;  
expenses of speakers and musicians at  
public meetings; printing and dis-  
tribution of circulars, pamphlets,  
newspapers, cards, handbills and an-  
nouncements relating to candidates  
or political issues; reasonable com-  
pensation for challenges at the polls;  
making canvass for votes, clerk hire;  
expenses for conveying infirm or dis-  
abled voters to or from the polls.

## Campaign Expenses.

The sum which a candidate for  
nomination is permitted to spend is  
based on the vote at the last preced-  
ing election. If the total vote within  
the district at the last preceding  
election did not exceed 5000, a candi-  
date may expend \$250. For each 100  
voters over 5000 and under 25,000, \$2  
for each 100 voters. For each 100  
voters over 25,000 and under 50,000,  
\$1; and for each 100 voters over 50,  
000, 50 cents. The basis of the vote  
for estimated expenditures is upon  
the total vote, and not upon the  
party vote. Thus, if there is a total  
republican, democratic and socialist  
vote of 5000, a party candidate for  
nomination may expend in such  
district \$250. While if the total vote  
was 10,000 a party candidate could  
expend \$350. If there should be 250,  
000 votes in the district, the candi-  
date for nomination could spend \$250  
for the first 5000, \$400 for the next  
20,000 votes, \$250 for the next 25,000,  
and \$375 for the remaining 75,000,  
making a total of \$1,275 in the dis-  
trict which cast a total of 250,900  
votes.

The direct primary law provides for  
political conventions. Blank spaces  
are left at the bottom of the last  
column of each party ticket in which  
the voter may write or paste the  
name or names of electors as dele-  
gates to his party convention. Party  
conventions are empowered to for-  
mulate platforms and transact any  
other business not in conflict with the  
direct primary laws.

State conventions shall be held  
within four weeks after the August  
primaries at a time and place design-  
ated by the state central committee.  
The state central committee is re-  
quired to file, 50 days prior to the  
August primary election, a written  
petition with the secretary of state  
and to mail a copy of same to each  
chairman. This petition affixes the  
day and place of holding the state  
convention, the number of delegates  
entitled to seats, and the number of  
delegates apportioned to each county,  
together with a brief statement of  
the purposes for which the convention  
will meet. Delegates to the state  
convention from a county are select-  
ed by the county convention.

## In Presidential Years

The act also provides for a May  
convention in the year in which a  
presidential election is to be held,  
which is called in the same manner  
as other state conventions and the  
delegates to the May convention are  
likewise elected by the county con-  
ventions. The May party conventions  
elect delegates to the national con-  
vention to nominate candidates for

president and vice president of the  
United States.

County conventions must be held  
within two weeks after the August  
primary and are called by the chair-  
man and secretary of the county com-  
mittee filing with the county clerk  
a petition stating the date and place  
of holding the county convention,  
and the number of delegates entitled  
to seats therein, and also the number  
of delegates apportioned to each  
election precinct or subdivision of  
the county. The petition must also  
contain brief statement of the pur-  
poses for which the convention will  
be held and a copy of the petition  
must be mailed to each committe-  
man within the county. The dele-  
gates to the county convention are  
elected at the August primary by the  
voter writing or pasting the names of  
candidates in the blank spaces left  
on the official party ballot.

Municipal conventions may be  
called in the same way and delegates  
may be selected as they are to  
county conventions.

City and county central committees  
are elected by the party convention  
and state, county and municipal  
central committees are authorized to  
select from their number an executive  
committee which may have charge of  
the political campaign.

The several officers and committees  
of political parties now in existence  
are authorized to exercise the powers  
of such officers and committeemen  
until their successors are chosen, as  
provided under the direct primary  
law, and central committees are  
authorized to file vacancies in nomi-  
nations which may occur after  
primary elections are held.

## Election Expense Accounts

The law requires each candidate  
for nomination within 28 days after  
the primary election to file a verified  
statement setting forth by items the  
money expended by him or under  
his direction or in his behalf in his  
effort to secure nomination. This  
statement shall be filed with the  
officer authorized to issue the certifi-  
cate of nomination for the office for  
which he was a candidate, and a  
duplicate shall be filed with the  
county recorder of the county in  
which he resides, and no certificate  
of nomination shall be issued unless  
such statement has been filed. The  
law makes it a misdemeanor to bribe  
a person to sign a nomination paper  
or for any person to suppress a nomi-  
nation paper, and all offenses against  
the general election laws shall also  
be an offense concerning primary  
elections.

Yours very truly,

LEROY A. WRIGHT.

## DANGER IN DELAY

Kidney Diseases Are Too Dangerous  
for Jackson People to Neglect.

The great danger of kidney troubles  
is that they get a firm hold before  
the sufferer recognizes them. Health  
is gradually undermined. Backache,  
headache, nervousness, lameness, sore-  
ness, lumbago, urinary troubles,  
dropsy, diabetes and Bright's disease  
follow in merciless succession. Don't  
neglect your kidneys. Cure the kid-  
neys with the certain and safe  
remedy, Doan's Kidney Pills, which  
has cured people right here in this  
locality.

Henry Tebeau, 24 S. San Joaquin  
St., Stockton, Cal., says: "I suffered  
from kidney trouble for a long  
time and in spite of the many  
remedies I used, I gradually grew  
worse. My bladder was much in-  
flamed and the kidney secretions were  
highly colored, contained a sediment  
and the passages were attended by  
a burning sensation. I had severe  
pains across my back and could  
hardly stoop. My attention was  
finally called to Doan's Pills and I  
procured a box. I am now enjoying  
the best of health and give Doan's  
Kidney Pills the credit."

For sale by all dealers. Price 50  
cents. Foster-McBarn Co., Buffalo,  
New York, sole agents for the United  
States.

Remember the name—Doan's—and  
take no other.

While engaged in selecting a jury  
in the Pettus case Wednesday, one of  
the principal excuses offered when  
all others failed was that the veir-  
man had a string of about fourteen  
cows at home with no one to milk  
them. Finally the judge asked the  
bailiff if there were any idle men  
about town who could be pressed into  
service as milkers in case of neces-  
sity. The bailiff mentioned the  
names judge Howard, city attorney  
Bray and attorneys Fred Irwin and  
Abe Darlington, and vouched for  
their ability to serve as milkmaids,  
and the old excuse didn't go any  
more.—Nugget.

The best remedy we know of in all  
cases of Kidney and Bladder troubles  
and the one we always can recom-  
mend, is DeWitt's Kidney and Blad-  
der Pills. They are antiseptic and at  
once assist the kidneys to perform  
their important work. But when  
you ask for these pills be positive  
that you get DeWitt's Kidney and  
Bladder Pills. There are imitations  
placed upon sale to deceive you.  
Get DeWitt's. Insist upon them,  
and if your dealer cannot supply you  
—refuse anything else in place of  
them. Sold by City Pharmacy, F.  
W. Kusher Prop.

SCIENTIFIC MISCELLANY

Reported weekly for the Ledger.

Making New Bacteria—A Drill with a Grip—The New Coinage Metal—Acid Corrosion by Alkaline Water—Strong Drink and Consumption—A New Armor Piercing Bullet—The Family Kinematograph—Air Polishing—Rat Leather.

One of the most remarkable of recent biological discoveries is that certain living organisms may be artificially impressed with a definite new character, which at once becomes hereditary, and may be transmitted to numberless generations. The discovery was made about three years ago in Frankfurt, where Massini found that a bacterial intestinal parasite cultivated in the presence of milk sugar acquired the new property of producing lactase, the enzyme that decomposes milk sugar. Shortly afterward a second bacterium having the same peculiarity was noted by Burk, and since then three others have been made known by Dr. Reimer Mueller. It appears that when the culture of bacteria exhausts its usual food, some of the group suddenly try the new substance. These develop so rapidly as to rise up above the others in the culture, forming the "knobs" by which the altered bacteria are recognized, and the acquired taste is retained and handed down to other generations. Dr. Mueller has made a systematic study of hundreds of kinds of bacteria in the presence of 18 sugars and other carbohydrates. He has found many bacteria that develop the characteristic knobs with arabinose, dulcitol, saccharose or other material, but very few were affected by more than one substance. Typhoid bacilli were altered in four days on agar containing one per cent of isodulcitol. The phenomena have practical value, such as giving the chemist reagents for detecting carbohydrates, and the physician tests for recognizing various diseases.

In the novel electromagnetic drill of Burckhardt, a German engineer, electromagnets on both sides of the drill spindle hold the machine firmly against the work and an electro motor rotates the tool for drilling, counter-sinking or other operation. The machine is designed for shipyards and machine shops generally.

Aluminum coins have been found by abrasion experiments at the French mint to wear less rapidly than coins of gold, silver or even bronze. The recent conclusion that all boiler corrosion is a result of galvanic action is being questioned, and another cause has been brought to the notice of the Society of Chemical Industry by G. N. Huntley. In this case sulphur appears to have produced the pitting of a boiler. Increase in the caustic soda used had no effect, and the water was slightly alkaline, but blisters formed—especially near the water line—proved to contain ferrous sulphate with a slight excess of sulphuric acid. The investigation has suggested an explanation of the curious acid corrosion in alkaline water. The sulphur contained in the water seems to be first oxidized to sulphuric acid, and this attacks the metal about it, depositing oxides that form a membrane permeable to oxygen, but not to alkali. Thus the acid continues its work of corrosion, while protected against neutralization by a shield of its own construction.

A striking connection between alcoholism and tuberculosis has been brought out by Jacques Bertillon in a set of maps based on the latest French statistics. The maps show that in the north of France the consumption of brandy per inhabitant is much greater than in the central and southern portions, and that the line of separation corresponds to that of the limit of vine culture. In wine-drinking regions the use of brandy is small. The phthisis map agrees very closely with the alcoholism map, and indicates that the use of brandy and other strong alcoholic beverages gives conditions specially favorable for the development of tuberculous diseases. Phthisis among saloonkeepers, moreover, is more than twice as frequent as among other merchants, the yearly deaths being 573 and 245 respectively in each 100,000. In Paris phthisis is twice as common among males as among females, and this also seems to be due to the fact that alcoholism is chiefly confined to men.

A new Austrian rifle bullet, designed to pierce the shields of field guns, has a sharp pointed steel core, which is inclosed in a lead coating is contained in a pointed steel outer covering. A special explosive, giving greatly increased muzzle velocity, is used with this bullet. In tests by the Austrian authorities, the core pene-

trated steel gun shields 600 yards away, the lead and steel coverings being left behind when the projectile strikes.

In being adapted for the home, moving pictures have entered a new and very promising stage. A simple apparatus recently patented is described as only three feet long by one foot wide and one foot deep. It is provided with a ground glass at one end, on which a picture 8 by 10 inches in size can be thrown, but if a larger view is required, the ground glass can be removed, when the image will be projected upon a white sheet or other surface provided, and will be enlarged more or less, according to the distance from the machine of this new screen. Any convenient light—such as an acetylene bicycle lamp—will serve for illumination. It is expected that the apparatus will be made in a variety of styles, from a cost of a dollar or two to quite expensive outfits, and the spools of film, lasting two or three minutes, are to be furnished at price comparable to those of phonograph records. Freedom from risk of fires is claimed, as the film is heated much less than by the powerful lights necessary for the larger machines.

The sand-blast as a polisher is now followed by the simple air-blast. The erosive power, of course, is not so great, but when the articles to be cleaned or finished are placed in a basket in a rapidly driven centrifugal machine, and hot air is blown from a pipe through the basket, a high polish is imparted rapidly and efficiently. Tarnished nickel or silver and objects not requiring deep cutting are given a brilliant new surface. Special care in packing the articles is taken, so that the air jet may be projected against all sides and thus made to act evenly and completely.

The pestiferous rat is proving to be commercially valuable for other purposes than to feed the Chinaman. The skin makes a fine leather, and this is coming into demand for book binding, gloves and a variety of useful and ornamental articles. The production of this leather is estimated to amount already to \$250,000 yearly. The demand is much greater than the supply and it is said that advertisements for the skins in all quantities are appearing in rat-infested localities.

Who Taught Her Caution?  
Isabel, aged four, was talking to an imaginary friend over the telephone, when her mother heard her say: "Wait a minute, Rocky. My brother is right here listening to all you say, and my mother is in the room too. Don't tell me about it now."—Delineator.

Careless.  
Visitor—So that's Miss Overton. Don't you think she carries her age remarkably well? Artist—No, I don't. She has dropped several years of it to my personal knowledge.—Illustrated Bits.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address, F. J. Cheney & Co., Toledo, O.  
Sold by Druggists, 75c.  
Hall's Family Pills are the best.

The Knock-out Blow.

The blow which knocked out Corbett was a revelation to the prize fighters. From the earliest days of the ring the knock-out blow was aimed for the jaw, the temple or the jugular vein. Stomach punches were thrown in to worry and weary the fighter, but if a scientific man had told one of the old fighters that the most vulnerable spot was the region of the stomach, he'd have laughed at him for an ignoramus. Dr. Pierce is bringing home to the public a parallel fact; that the stomach is the most vulnerable organ out of the prize ring as well as in it. We protect our heads, throats, feet and lungs, but the stomach we are utterly indifferent to, until disease finds the solar plexus and knocks us out. Make your stomach sound and strong by the use of Dr. Pierce's Golden Medical Discovery, and you protect yourself in your most vulnerable spot. "Golden Medical Discovery" cures "weak stomach," indigestion, or dyspepsia, torpid liver, bad, thin and impure blood and other diseases of the organs of digestion and nutrition.

The "Golden Medical Discovery" has a specific curative effect upon all mucous surfaces and hence cures catarrh, no matter where located or what stage it may have reached. In Nasal Catarrh it is well to cleanse the passages with Dr. Sage's Catarrh Remedy while using the "Discovery" as a constitutional remedy. Why the "Golden Medical Discovery" cures catarrhal diseases, as of the stomach, bowels, bladder and other pelvic organs will be plain to you if you will read a booklet of extracts from the writings of eminent medical authorities, endorsing its ingredients and explaining their curative properties. It is mailed free on request. Address Dr. R. V. Pierce, Buffalo, N. Y. This booklet gives all the ingredients entering into Dr. Pierce's medicines from which it will be seen that they contain not a drop of alcohol, pure, triple-refined glycerine being used instead. Dr. Pierce's great thousand-page illustrated Common Sense Medical Adviser will be sent free, paper-bound, for 21 one-cent stamps, or cloth-bound for 31 stamps. Address Dr. Pierce as above.

Constipation causes headache, nausea, dizziness, languor, heart palpitation. Drastic physics gripe, sicken, weaken the bowels and don't cure. Doan's Regulators act gently and cure constipation. 25 cents. Ask your druggist.

How to Apply Iodine.

If it is necessary to use iodine for painting the skin in medical treatment, it is worth remembering that the painting should be done in the dark or in a red light such as is used in photography. If this is done and the painted portion of the skin be covered without being exposed to white light, it will not blister nor stain the flesh even if the painting is repeated a good many times.

How to Get Rid of the Smell of Paint.

To dispel the smell of paint slice two or three onions and place them in a large pail of water in the middle of the room and leave it there all night. If the smell has not gone off in the morning repeat the process. Hay is often used in the water instead of the cut onions; but, though sweeter smelling itself, it is perhaps less efficacious.

How to Prevent Tender Feet.

One woman boasts of not knowing what it is to have sore feet, and the secret of her success is very simple. She takes time once a week to soak her feet for almost an hour, and in this way she keeps them tender, but not too much so, and she has never known what it was to have a corn, bunion or other affliction. A small foot tub is filled with warm water in which there is a plentiful supply of melted white soap. She sits with her feet in the water and to keep the time from being too tedious reads a book. When the water begins to cool she realizes the soaking process is at an end. After drying the feet she attends to the nails and cuts them across, merely clipping the nail corners, because rounded nails will eventually penetrate the flesh, and the torment of ingrowing nails is most severe. A plentiful amount of talcum powder is used, and this insures comfort. No stockings with seams are worn, the shoes fit snugly, and a shoe too large is considered as injurious as one too tight. At the first appearance of a corn it is never tampered with, but the spot is treated with turpentine and ere long it disappears.

R. Webb, of, by and for the Ledger has been appointed United States Commissioner for four years. He had no opposition for the position. The salary attached to it would keep an extremely moderate smoker in smoking tobacco.—Amador Record.

We publish this to show the sort of spirit that moves some people—fortunately very few. We do not know the editor of the Record, except by sight. We have never had any business dealings with him; neither have we ever been introduced to him, or conversed with him. From these facts our readers may judge for themselves as to the premises. We care nothing for such printed stuff. It hurts only the author; shows the real character of the individual.—Ed Ledger.

**The Crime of Idleness.**

Idleness means trouble for any one. It is the same with a lazy liver. It causes constipation, headache, jaundice, sallow complexion, pimples and blotches, loss of appetite, nausea, flat Dr. King's New Life Pills soon banish liver troubles and build up your health. 25c. at Jackson Drug Store, Spanish Prop.

**In Memoriam**

"No one bears the door that opens,  
When they pass beyond our call,  
Soft as loosened leaves of roses  
One by one our loved ones fall."

To the officers and members of Jackson Rebekah Lodge, No. 50.

We, your committee appointed to draft resolutions of respect upon the death of our late sister, Elizabeth Stasal, respectfully submit the following:

Whereas, in the wisdom of providence, working ever in mysterious and inscrutable ways, it has pleased God to remove from our midst our beloved sister, Elizabeth Stasal, and

Whereas, while feeling the deepest sorrow and personal loss in the departure of one of earth's noble women we, nevertheless, bow before the expression of divine will and accept with resignation the misfortune that has fallen upon our lodge and the bereaved family, and

Whereas, in every department of activity in which she was engaged, we have always found her uniformly industrious, devoted and true, faithful and loving to her friends, gentle and compassionate to the unfortunate. Now, therefore be it.

Resolved: That while her guiding hand will never again be with us in our earthly lodge, we all firmly believe, in the language of scripture,—"I go to prepare a place for you,"—that in the golden summer of another life we will again gather in a sweet reunion where partings are unknown.

Resolved: That Jackson Rebekah Lodge extend to the relatives and friends of our departed sister every expression of deepest sorrow and heartfelt sympathy, that our charter be draped in mourning for a period of thirty days, and that these resolutions be entered upon our minutes, published in the local papers, and copies sent to the bereaved family.

"So one by one those loved the best  
Ship out at evening prayer;  
Soon we like them shall go to rest,  
While shadows fill the air."

Respectfully submitted, in F. L. T. Committee:

KATE LANGHORSE,  
MAUD VANDAMANT,  
EMMA BOARMAN

Itching piles provoke profanity, but profanity won't cure them. Doan's Ointment cures itching, bleeding or protruding piles after years of suffering. At any drug store.

Shaw's blacksmith and repair shop, Valley Springs, California, including real estate equipped with power and modern machinery for all classes of work, best lot of blacksmith and good working tools in Calaveras county. Barcus horse shoeing sling, shop and tools for carriage painting. Inquire of Warren Lamb, Livermore, Calif.

**Order to Show Cause.**

In the superior court of the county of Amador, state of California.

In the matter of the Estate of A. M. Vaughan, deceased.

H. E. Potter, the administrator of the estate of A. M. Vaughan, deceased, having filed his petition herein praying for an order of sale of the whole of the real estate of said decedent, for the purposes therein set forth, it is, therefore, ordered by the judge of said court, that all persons interested in the estate of said decedent, appear before the said superior court, on Monday, the 13th day of September, 1909, at 10 o'clock in the forenoon of said day, at the courtroom of said superior court at the court house in the city of Jackson, county of Amador, to show cause why an order should not be granted to said administrator to sell the whole of the real estate of the said decedent, at either private or public sale, as said administrator shall judge to be most beneficial for said estate; and that a copy of this order be published at least four successive weeks in the Amador Ledger, a newspaper printed and published in the city of Jackson, county of Amador, state of California.

Dated, August 12, 1909.

FRED V. WOOD,  
Judge.

**Cricket Wickets.**

Cricket wickets have been placed twenty-two yards apart since 1700.

**The Surrender of Metz.**

The greatest surrender in the annals of warfare was that of Metz on Oct. 27, 1870. The surrender included 3 field marshals, 66 generals, 6,000 officers of lower degree, over 400 guns, 100 mitrailleuses, nearly 60 standards and 173,000 rank and file.

**An Alaskan Superstition.**

The Eskimo women of Alaska never sew while the men are fishing, and should any mending be imperative they do it shut up in little tents out of sight of the sea.

**Care in Powder Mills.**

The garments of workers in powder mills are pocketless, so that they cannot carry knives or matches or indeed anything, and are made of noninflammable material. No one is allowed to go about with trousers turned up at the bottom, because grit is collected in that way, and the merest hard speck is dangerous.

**Arabic Figures.**

Arabic figures were not invented by the Arabs, but by the early scholars of India.

**Ceylon Hospitals.**

A curious official regulation demands that all the old linen of the Ceylon hospitals shall be burned every three months. A government official comes round on a periodic linen inspection and condemns holey sheets, towels, etc., to a fiery fate.

**The Turquoise.**

Persia has the most famous turquoise mines in the world, which have been worked no less than eight centuries. These pretty stones, however, are to be found in many parts of the world, including Saxony.

**A Cape Town Scotsman.**

Among the black population of Cape Town the florin is called a "Scotsman" because in the old days, when the florin was little known in South Africa, a Scottish contractor paid his workmen in florins instead of half crowns.

**Illuminating Oil.**

Oil was used for illumination as early as the epoch of Abraham, 1921 B. C.

**Christmas Trees.**

Practically all conifers can be and are used as Christmas trees, but the most popular ones are the firs, spruces and, to a less extent, the pines and cedars. The use of one or another evergreen for this purpose depends frequently upon its accessibility, particularly in the mountainous sections of the country.

**The Antarctic Circle.**

The antarctic circle was first crossed by Europeans by the James Ross expedition Jan. 17, 1873.

**Artificial Eyes.**

Artificial eyes were first made use of by the Egyptians. They were of gold and silver and subsequently of copper and ivory. Hundreds of years later, in the sixteenth century, when they were made in Europe, porcelain was the substance used, and the maker usually stamped his address on the white of the eye.

**The First "Boo!"**

How many are aware of the origin of the word "boo," used to frighten children? It is a corruption of "Boh," the name of a fierce Gothic general, the son of Odin, the mention of whose name spread a panic among his enemies.

**Treating a Burn.**

Bear in mind that quick treatment of a burn will not only relieve suffering, but will frequently remove all danger of permanent scars. Baking soda, scraped raw potato, lard, olive oil, molasses and even milk are efficacious, much of the virtue of the cure depending upon a speedy application.

**Philadelphia.**

The largest city in the country in Washington's time was Philadelphia. It had 69,000 inhabitants.

**Evolution of Warfare.**

The battle of Perno, fought July 6, 1495, between the French and the Milanese, whose territory they were invading, was the very last of the characteristic middle age battles. From that time the infantry gained the pre-eminence over the cavalry, and cannon were employed in preference to all other projectile weapons.

**Divorces in Holland.**

When a wife is divorced in Holland she takes half her husband's goods.

**The Call of the Drum.**

When an African chief of the Nigerian tribes is ready to begin harvesting and requires extra assistance he sets some of his tribesmen drumming. They beat a huge kettledrum made of skin stretched on a calabash and a small side drum. The sound of the drumming carries a great distance, and laborers come in from all directions.

**Chalk in Glue.**

The addition of a little powdered chalk is said to make common glue stronger.

**First Ice Machine.**

The first ice machine was made by Dr. John Gurrie of Apalachicola, Fla., where there was a great prevalence of fevers in summers. In 1850 he succeeded in producing small blocks of ice about the size of the ordinary building block.

**A \$100 Typewriter for 17 cents a Day**

Please read the headline over again. Then its tremendous significance will dawn upon you. An Oliver Typewriter—the standard visible writer—the \$100 machine—the most highly perfected typewriter on the market—yours for 17 cents a day!

The typewriter whose conquest of the commercial world is a matter of business history—yours for 17 cents a day!

The typewriter that is equipped with scores of such conveniences as "The Balance Shift," the "Ruling Device," the "Double Release," the "Locomotive Base," the "Automatic Spacer," the "Automatic Tabulator," the "Disappearing Indicator," the "Adjustable Paper Fingers," the "Scientific Condensed Keyboard," all

Yours for 17 Cents a Day!

We announced this new sales plan recently, just to feel the pulse of the people. Simply a small cash payment, then 17 cents a day. That is the plan in a nutshell.

The result has been such a deluge of applications for machines that we are simply astounded.

The demand comes from people of all classes, all ages, all occupations.

The majority of inquiries has come from people of known financial standing who were attracted by the novelty of the proposition. An impressive demonstration of the immense popularity of the Oliver Typewriter.

A startling confirmation of our belief that the Era of Universal Typewriting is at hand.

**A Quarter of a Million People are Making Money with**

**The OLIVER Typewriter**

**The Standard Visible Typewriter**

The Oliver Typewriter is a money-maker, right from the word "go!" So easy to run that beginners soon get in the "expert" class. Earn as you learn. Let the machine pay the 17 cents a day—and all above that is yours.

Wherever you are, there's work to be done and money to be made by using the Oliver. The business world is calling for Oliver operators. There are not enough to supply the demand. The salaries are considerably above those of many classes of workers.

An Oliver Typewriter in every Home

That is our battle cry today. We have made the Oliver supreme in usefulness and absolutely indispensable in business. Now comes the conquest of the home.

The simplicity and strength of the Oliver fit it for family use. It is becoming an important factor in the home training of young people. An educator as well as a money maker.

Our new selling plan puts the Oliver on the threshold of every home in America. Will you close the doors of your home or office on this remarkable Oliver opportunity?

Write for further details of our easy offer and a free copy of the new Oliver catalog. Address
